

WP 3 - Capitalization

Activities

A 3.1 1st Mediterranean Conference for sharing the way toward the capitalization of the results at the Mediterranean level

The International Conference will be organized in Cyprus at month 22, given its strategic position (geographical and political) toward the improvement of the Mediterranean water management. The aim will be to transfer the successful results of projects and programmes to appropriate decision-makers and share the strategies.

A 3.2 “ENPI CBC Med seminar” for guaranteeing the coherency of the Water-DROP Project with the other ENPI CBC Med projects coping with the issue of water management.

The ENPI CBC Med Seminar, which will be held in Rome at month 20, will be a strategic appointment to ensure maximization of synergies between ENPI projects concerning the integrated water resources management (IWRM) receiving a benchmarks for evaluating the quality, relevance and effectiveness of the water projects results..

A 3.3 4 National roundtables and Road Maps for the capitalization of the results and coordination of future activities at local level.

N° 4 national roundtables (one per target country) will be realized, at months 22 and 23, in order to share with the target groups (national authorities competent for water management and other relevant stakeholders) the results of the project and transfer the tools for better water management governance.

Expected Results

Capitalised results into technical and political paths at different levels (local, national, regional, basin)

Total eligible costs: € 80.887,20

WP Coordinator: IUCN ROWA

A 3.1 1st Mediterranean Conference

Location: Nicosia, Cyprus
